Map 06/ Block 37/ Lot 6/3: Mr. Goul attended the zoom meeting to present and answer questions from the members. The applicant is planning to build a house. They didn't know there was a height limit of 30 feet in town since their architect told them 35 feet was alright in town. Once the applicant was informed, they submitted an application for approval. The application for the building permit has been submitted, but the zoning permit application is pending. There has been no activity or construction on the property. If the roof line was adjusted, the style and look of the house would be thrown off. Other surrounding towns have the regulation set to 35 foot roof heights. The fire department in town has updated their fire apparatus to be able to reach a roof height of 35 feet on residential houses. The members also mentioned having the regulations changed to have the roof line come up to 35 feet high.
